
Kai
Guardian

Kai Guardian 1

Breach Beyond the Shield

Cables seated. Zero packet drop.

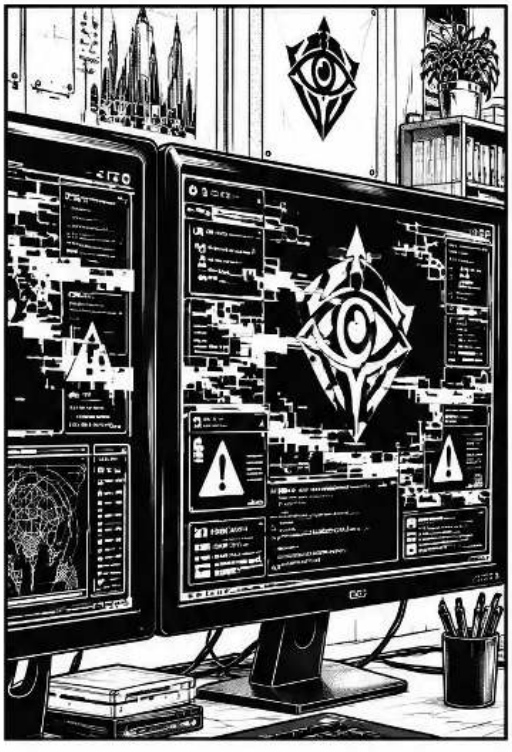

People still click fake popups if the banner looks official.

One badge, one color scheme, zero ambiguity.

That is why Kai Guardian exists.
TAP

A clear visual perimeter stops deception before code execution.

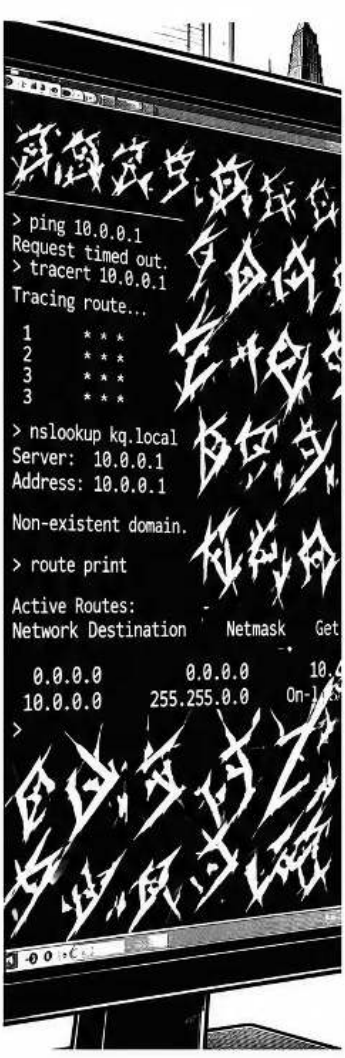

We launch the warning network tonight.
Clean. Authoritative.
CHIME
CHIME

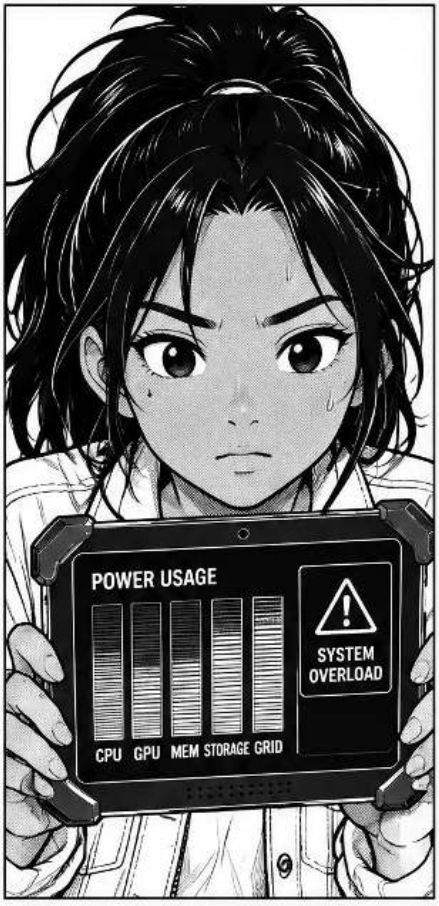

An intrusion ping just tripped the border gateway.

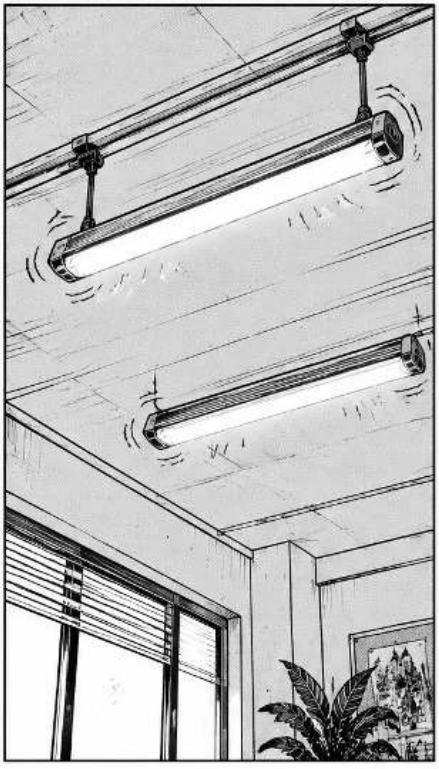

Identify the origin node.

It is mimicking our local domain.

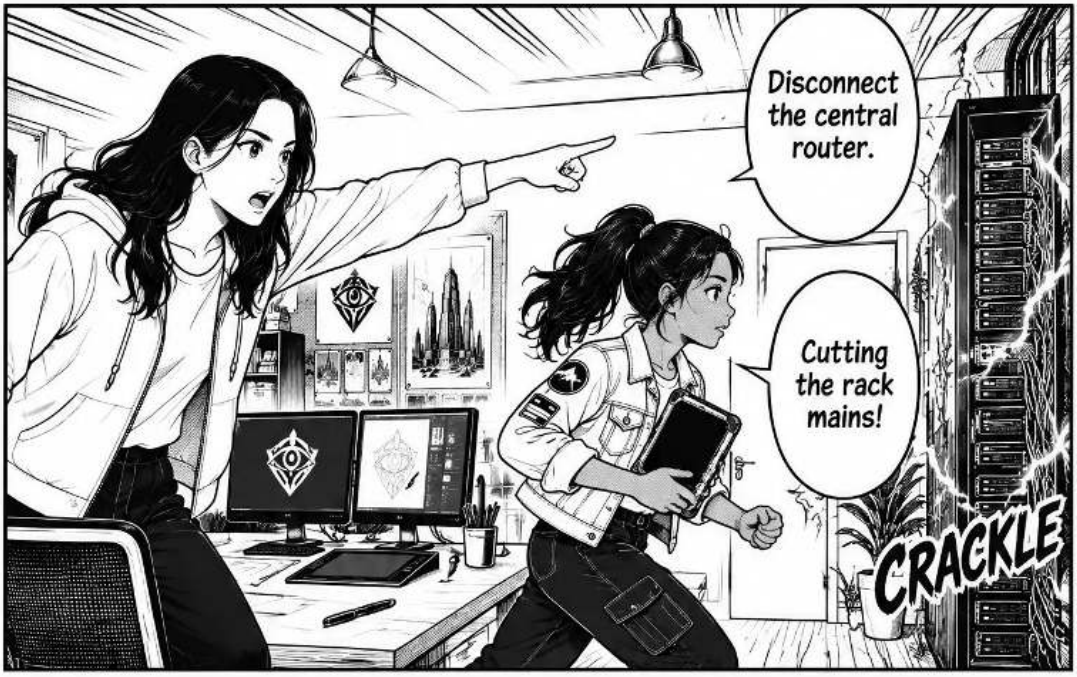

> ping 10.0.0.1
Request timed out.
> tracert 10.0.0.1
Tracing route...

Active Routes:
Network Destination Netmask Get
0.0.0.0 0.0.0.0
10.0.0.0 255.255.0.0

No external IP? That makes no sense.

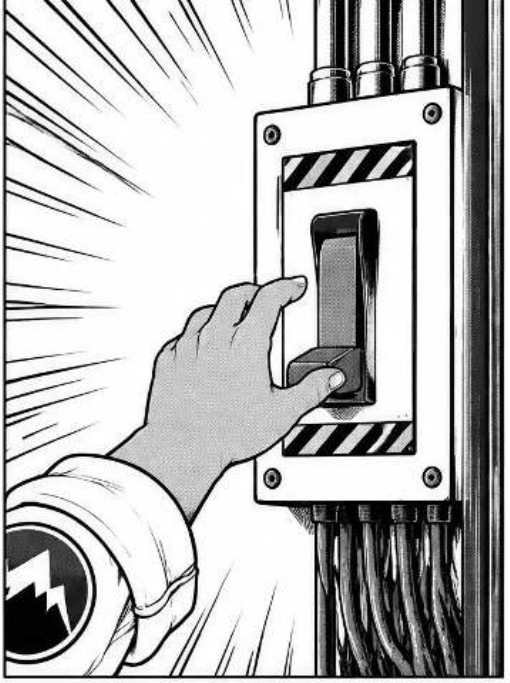

POWER USAGE
SYSTEM OVERLOAD
CPU GPU MEM STORAGE GRID

HUMMMM
It is pulling power straight from our hardware.

Disconnect the central router.
Cutting the rack mains!
CRACKLE

BZZT!

CRACKLE
CRACKLE

The wall is opening up!

CRACK-SHATTER

Grab the desk frame!

I cannot hold the grip!

SHRIEEK

CLANG

Run forward.

An exit.

Almost there!

CLANG

Where did the studio go?

18%
Still online.

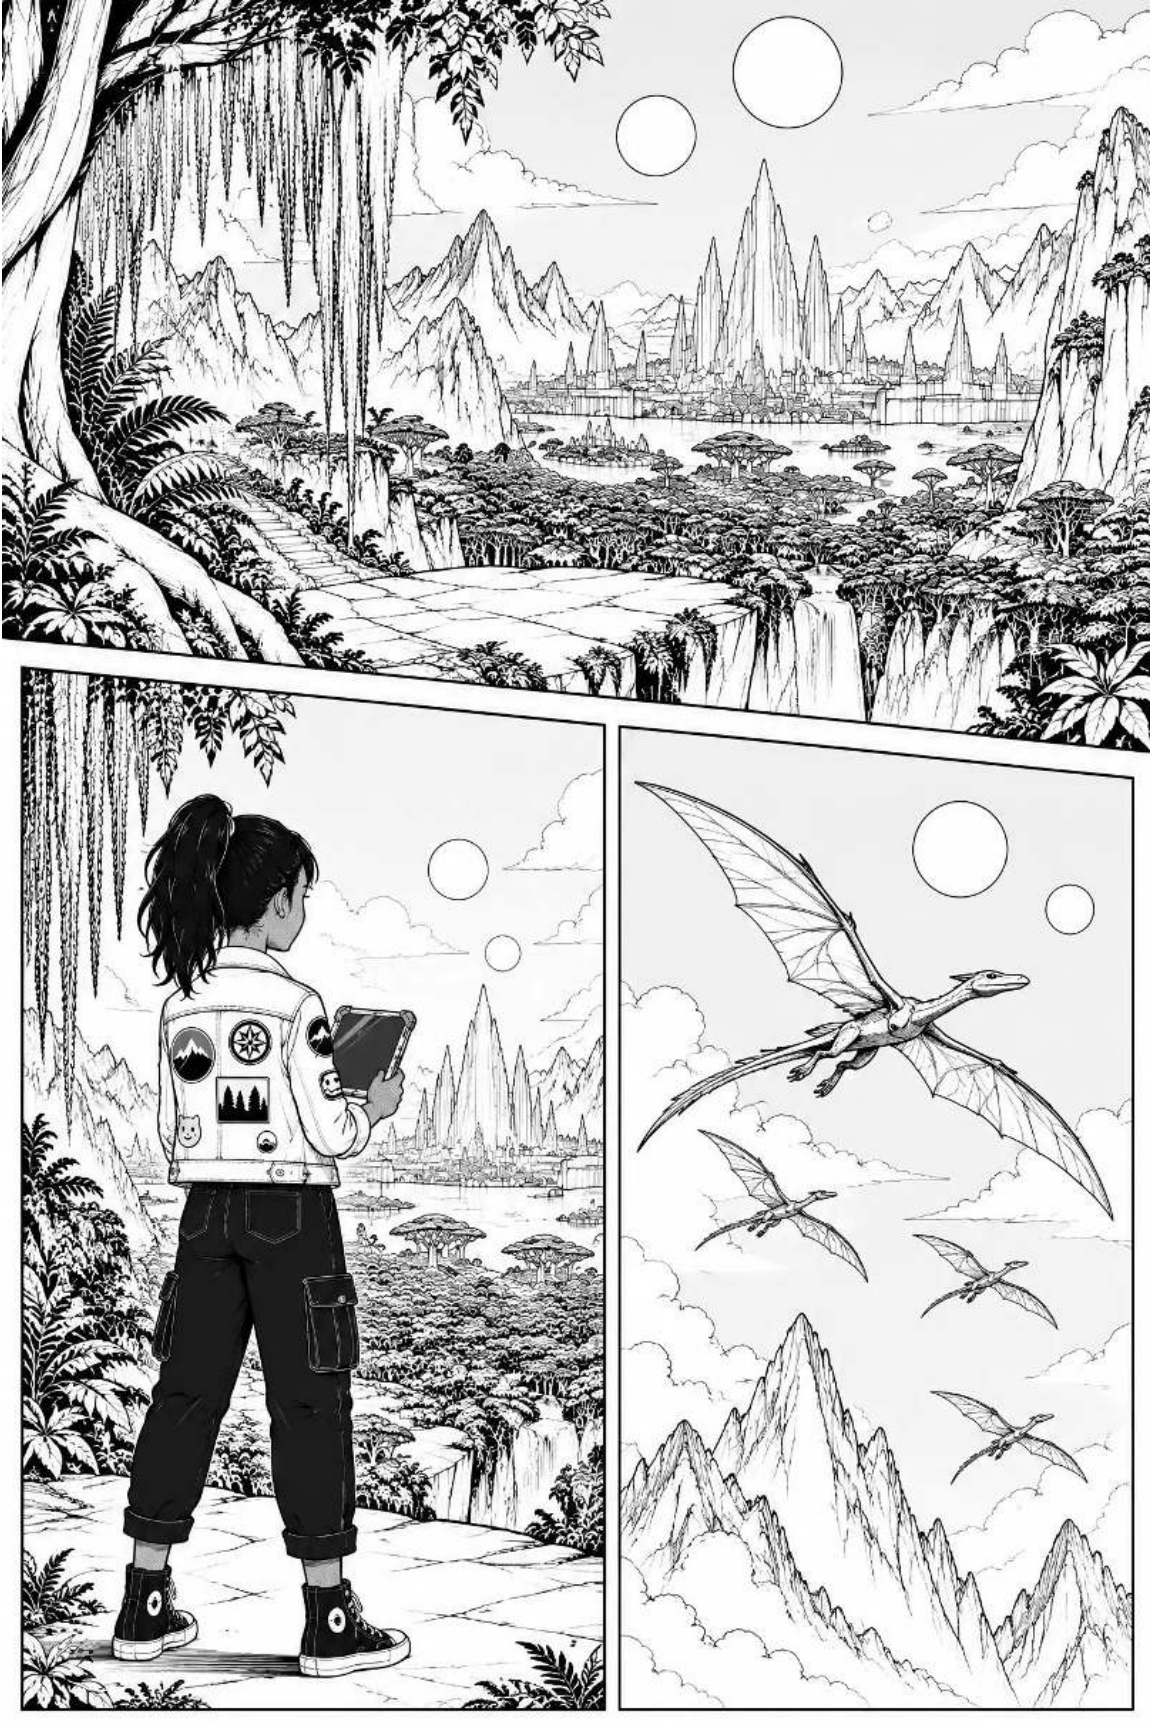

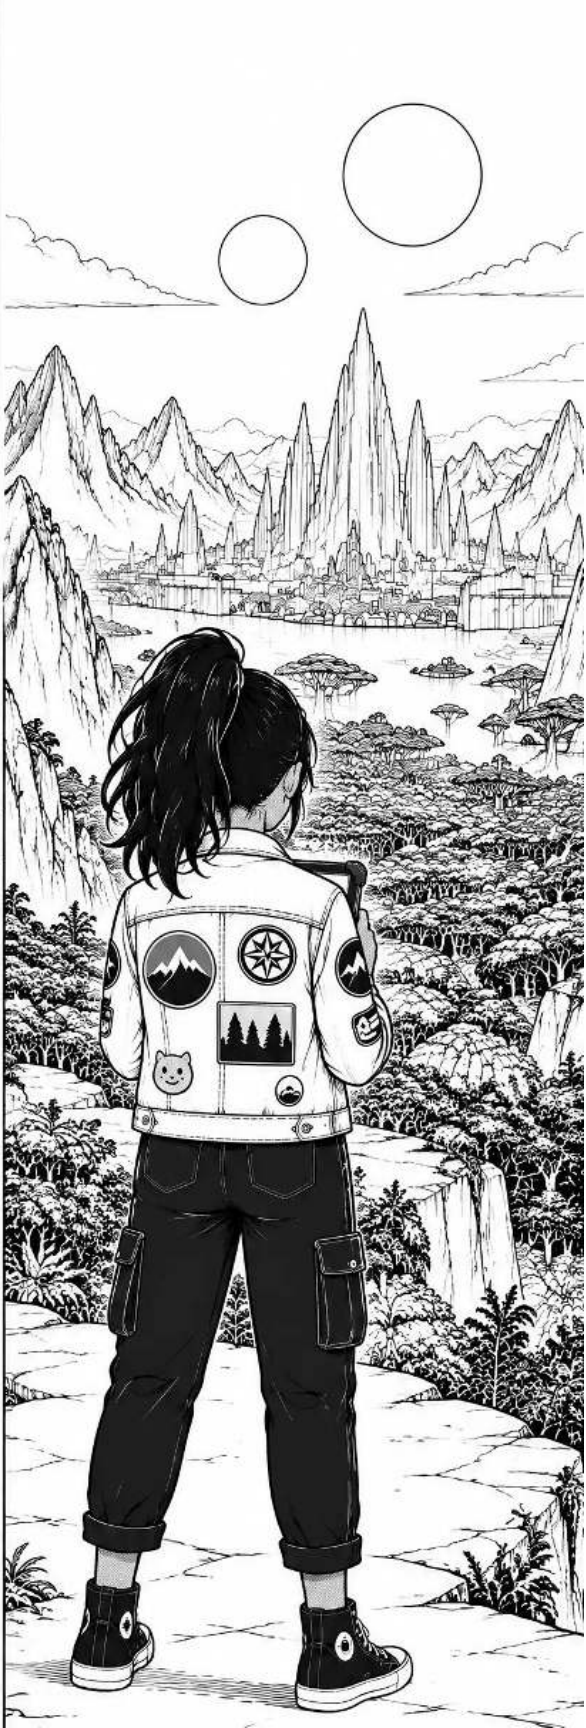

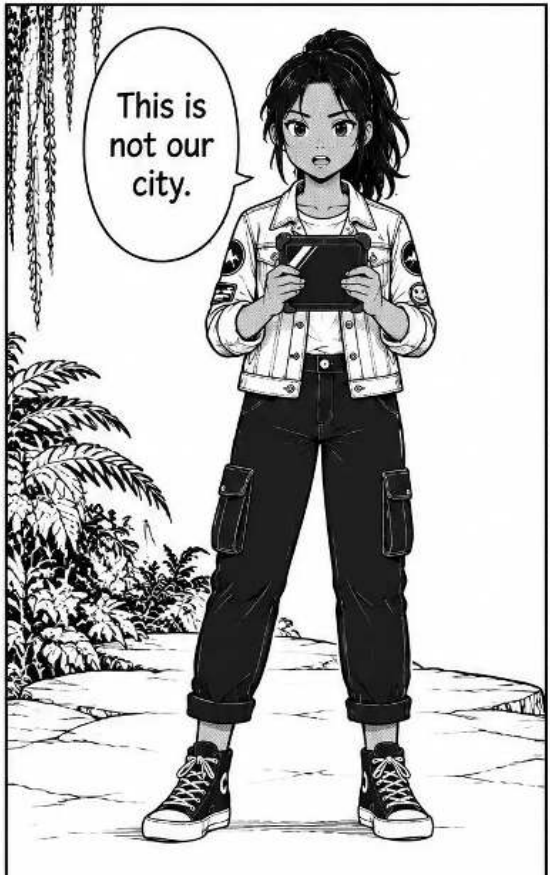

This is not our city.

THE END
End of Chapter 1: Breach Beyond the Shield
